

WD-40 SPECIALIST® CHAIN WAX

DATA
SHEET

PRODUCT OVERVIEW

This product provides lasting lubrication and protection for your chain and is O, X and Z ring compatible. With exceptional corrosion protection, it's particularly suitable for wet conditions and provides outstanding anti-fling properties. Regular use helps to maintain the performance and life of your chain.

FEATURES & BENEFITS

- Contains extreme pressure and anti-wear additives for improved load resistance
- Anti-corrosive additives for superior metal protection
- Highly water resistant, providing excellent corrosion protection
- Long lasting
- Penetrates and thickens
- Anti-fling formula
- Precision spray application minimises wastage
- Compatible with O, X and Z ring chains

RECOMMENDED USAGES

Primarily designed for use on high-speed motorcycle chains, but can be used on all moving metal parts to improve lubrication and help prevent malfunction and seized parts.

DIRECTIONS FOR USE

Before use, clean the chain first with WD-40 Specialist® Motorbike Chain Cleaner to remove dirt, oil and grime. Shake the can well and apply to the full length of the inside of the chain, allowing the product to run vertically down into the chain parts, then leave to dry.

TECHNICAL DATA

Appearance	A white, viscous grease
pH	Not applicable
SG	App. 0.81 @ 20°C
Viscosity	Thin, free-flowing liquid - extremely volatile
Flammability, as supplied	Extremely flammable, flash point below -20°C
Composition data, as supplied	A solution of calcium-based grease, viscosity modifiers, anti-wear and extreme pressure additives and butane/isobutane/ propane propellant
Service temperature	Designed for use at ambient temperatures only
