

PRODUCT GUIDE

NO.1 UK BRAND MULTI-PURPOSE LUBRICANT*

LUBRICATES

PROTECTS

LOOSENS RUST

REMOVES

DISPLACES MOISTURE

*BASED ON 52WK GFK TECHNICAL LUBRICANTS & CONTACT SPRAYS JUNE 2025.
(LIMITED TO MASS MERCHANTISERS AND CAR ACCESSORIES SPECIALIST SECTORS ONLY)

ORIGINAL

FLEXIBLE

- Flexible straw
- Long reach
- 360 valve
- Wide spray
- Narrow spray

SMART STRAW

- Smart straw
- 360 valve
- Wide spray
- Narrow spray

SPECIALIST PRODUCTS

SPECIALIST

WD-40 Specialist is a range of eight greases, cleaners and lubricating products for professionals and for industrial use.

SPECIALIST PRODUCTS

PENETRANT

CONTACT CLEANER

DEGREASER

WHITE LITHIUM GREASE

SPRAY GREASE

CUTTING OIL

SILICONE

DRY LUBRICANT

BEST FOR

Penetrating rusted and corroded metal, loosening seized parts

Cleaning oil, dirt and dust from electrical components

Quickly removing grease, grime, oil and dirt from metals

Water and heat resistant lubrication on metal-to-metal

Long-lasting lubrication and corrosion protection with non-drip formula

Improving machine finishes on cutting and drilling equipment

Preventing parts from sticking and protecting against moisture

Enhanced lubrication to protect against corrosion and wear & tear

STAND-OUT QUALITY

Very low surface tension to penetrate rust, corrosion protection **30% at 72 hours**

Non-conductive cleaner, dielectric strength **33.8 kV**

Works immediately on contact, easy to rinse and leaves **no residue**

Corrosion protection **0-5% at 72 hours**, extreme pressure lubrication **1151lb**

WD-40 MUP provides base of formula, **4-ball wear test for oil 0.5mm**, corrosion protection **0% at 72 hours**

Contains extreme pressure and anti-wear additives, **4-ball wear test 0.59mm**

Excellent lubrication for high pressure performance in all temperatures

Leaves a dry, clear film that won't attract dirt, dust or oil

TEMPERATURE RANGE

-20°C to +90°C

Use at room temperature

Use at room temperature

-25°C to +130°C

Grease **-20°C to +115°C**, to **+260°C** as liquid

-20°C to +160°C

-35°C to +200°C

-45°C to +90°C

*K1 - For use in non-processing areas **K2 - Electronic instrument cleaners ***H2 - Lubricants, no food contact

Wide spray

Narrow spray

360° spray

PENETRANT

Powerful, fast acting release agent that works on contact to loosen rusted, corroded, stuck, or seized nuts, bolts, parts or fixings with ease.

- Quickly saturates deep into seams, crevices, and threads to break down any rust that bonds parts together, rapidly lubricating and freeing them
- Provides a protective, water resistant film to prevent any further rust or corrosion
- Releases corroded, stuck or seized nuts, fixings, bolts and parts
- Low surface tension formula

LOW SURFACE
TENSION

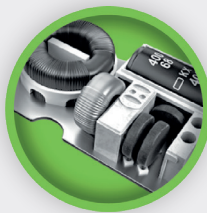

LOOSENS SEIZED
FIXINGS

PENETRATES
QUICKLY

Recommended for: Seized Nuts, Bolts & Fixings, Locks, Chains, Hinges, Pulleys

CONTACT CLEANER

Rapidly drives out dirt, dust, oil, flux residue and moisture from sensitive electrical equipment and parts with ease to keep equipment on top form.

- Fast drying, non-conductive spray that penetrates into the tightest of spaces
- Removes common surface contaminants that could cause current leakage, corrosion or component failure, leaving no residue behind
- Improves performance and reliability of electronic equipment
- Effectively removes moisture and condensation for better electrical contact
- Applicator straw and clever 360° valve allow precise working, even upside down

CLEANS

NO RESIDUE

NON- CONDUCTIVE

Recommended for: Circuit Boards, Electrical Components, Switches, Spark Plugs

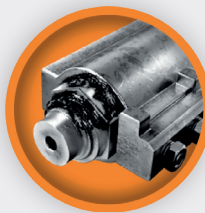

To prevent any accidental damage always check the manufacturer's instructions before applying product to device

WIDE
SPRAY

NARROW
SPRAY

DEGREASER

Solvent-based spray degreaser that quickly removes stubborn soiling such as oil, grease, dirt and grime without leaving any residue. Simply spray on the clear formula before wiping or rinsing away for a clean finish. For heavy soiling leave for a few seconds to penetrate through the dirt before wiping clean.

- Degreases oil, grease, dirt and grime
- Works immediately on contact for unbeatable speed
- Wipes off easily
- Evaporates quickly, leaving no residue
- Reduces wear and tear on components

FAST ACTING

CLEANS

NO RESIDUE

Recommended for: Engines, Power Tools, Industrial Machinery, Gear Mechanisms

WHITE LITHIUM GREASE

Provides great protection for heavy-duty, metal-to-metal applications. It can be used outdoors regardless of weather and temperature.

- Provides great long-term lubrication
- Won't drip or run thanks to high viscosity formula
- Works well under extreme pressure
- Reduces friction and wear
- Lubricates metal to metal applications
- Water and heat resistant, great for outdoor use

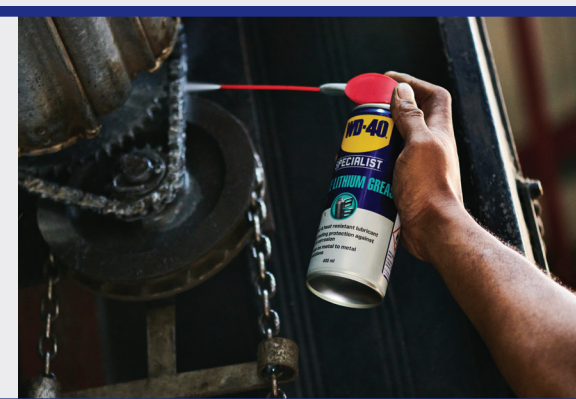

LUBRICATES

WATER RESISTANT

HEAT RESISTANT

Recommended for: Bearings, Winches, Conveyors, Latches, Tracks & Runners

SPRAY GREASE

Provides long-lasting lubrication and corrosion protection for all metal surfaces. WD-40 Multi-Use Product provides the base for this lubricant, and the non-drip formula has excellent adhesion and sealing properties.

- Long lasting non-drip formula stays where it's applied
- Can be applied on vertical surfaces
- Strong adhesion and sealing properties
- Safe to use on all metal surfaces, with virtually limitless applications
- Wide temperature range; use as a grease up to +115°C and as a liquid to +260°C

LUBRICATES

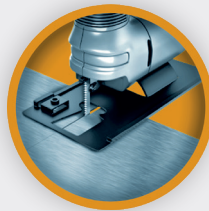

EXCELLENT ADHESION

WATER RESISTANT

Recommended for: Gear Mechanisms, Chains, Locks, Screws, Pipes, Taps

CUTTING OIL

Designed to improve the performance and extend the life of your cutting and drilling equipment. Suitable for most metals including stainless steel, not for use on titanium.

- Specially formulated to maximise the life of cutting and drilling equipment
- Lubricates to reduce tip welding
- Works under extreme pressure
- Improves machine finishes
- Prevents pitting and metal seizures
- Improves performance and extends the life of tools

PROTECTS

LUBRICATES

WON'T ATTRACT
DIRT

Recommended for: Hand Cutting Machinery, Power Cutting Equipment, Power Drills

WIDE
SPRAY

NARROW
SPRAY

SILICONE

Provides excellent protection and lubrication, while prolonging the life of elements such as seals & washers.

- Improves the movement of components while reducing friction and wear and tear on parts
- Provides excellent waterproofing and lubrication to prevent parts from cracking and ageing
- Creates water resistant seal to protect against moisture
- Works on many different materials such as metal, rubber, plastic and wood

LUBRICATES

PROTECTS
AGAINST MOISTURE

PREVENTS STICKING

Recommended for: Belts, Conveyors, Door Runners, Door Seals

DRY LUBRICANT

Excellent lubricant that provides protection against corrosion and wear & tear. The dry formula makes it ideal for enclosed areas that need lubricating such as locks.

- Water-resistant formula that protects against corrosion
- Provides enhanced lubrication to reduce wear & tear
- Leaves a dry, clear film that won't attract dirt, dust or oil
- Works on many different materials such as metal, plastic and glass

LUBRICATES

WATER RESISTANT

CLEANS DIRT AND MUD

Recommended for: Locks, latches, pliers, window tracks, conveyor belts, metal extrusions
